PROFFESSIONAL SUMMARY

Experienced in developing robust web applications using MERN (MongoDB, Express.js, React, and Node.js) stack. Developed over 10 projects in MERN with a proven ability to lead from concept to completion, ensuring timely delivery and high standards. Skilled in writing clean, efficient, and maintainable code with a focus on performance. Strong analytical and problem-solving skills for debugging and resolving complex issues. Committed to continuous learning and staying updated with the latest industry trends and technologies.

SKILLS

HTML | CSS | Bootstrap | JavaScript | React.js | MongoDB Atlas | Express.js | GIT | Redux | Postman | RESTful APIs | Node.js | Responsive design | UI-Kits | JWT | Netlify | Render | Vercel | Socket.io

WORK EXPERIENCE

MERN Stack Developer Trainee | Luminar Technolab
Nov 2023 - Present

- Currently undergoing intensive MERN stack development training, specializing in JavaScript and React.js to create interactive web applications.
- Acquiring hands-on experience in database design and data manipulation with MongoDB.
- Contributing to and completing over 10+ projects during the training program, enhancing practical skills.
- Engaging in structured training for proficiency in MongoDB, Express.js, React.js, and Node.js, and assisting in the development, testing, and deployment of web applications under senior developer guidance.

AI & Machine Learning Intern | Zephyr Technologies & Solutions
Aug 2022 - Sep 2022

Data Science Intern | Zephyr Technologies & Solutions
Mar 2022 - Apr 2022

EDUCATION

BE (CSE) | Bearys Institute of Technology, Mangalore | 7.25 CGPA
Aug 2019 - May 2023

XII | Kerala State Board | 72%
Apr 2018 - Apr 2019

X | CBSE Board | 82%
Apr 2016 - Mar 2017

PROJECTS

Accident & Case Reporting | MERN, Nodemailer, Stripe, UI-kit

- Built a robust MERN stack web app for online accident case management, features include real-time updates, secure OTP verification, Stripe payment integration, and advanced case tracking with notifications.

Food Delivery | MERN, UI-kit, Stripe, Nodemailer

- Created a food delivery platform leveraging MERN stack, Stripe for payments, and Nodemailer for seamless order processing.

Media Player | ReactJS, UI-kit JSON-server

- Developed a feature-rich media player using ReactJS and JSON-server, enabling efficient management and streaming of multimedia content with functionalities like playlist creation, media playback controls, and real-time data updates.

Contact Management System | MongoDBCompass, JavaScript, MERN

- A Contact Management System built using MongoDB, Express.js, React, and Node.js (MERN) stack, enabling efficient organization, retrieval, and management of personal and professional contacts with a user-friendly interface.

Project Fair | MERN, UI-kit, Responsive

- Developed Project fair, a dynamic web application using the MERN stack and UI-kit for enhanced user interface design. The platform is fully responsive, ensuring seamless access across various devices and screen.

EXTRA CURRICULAR ACTIVITIES

- Led a significant project during college as team leader, showcasing strong leadership and project management skills.
- Attended Second IEEE International Conference on Computational Systems and Communications, March 2023.
